

Office of Solid Waste Reduction And Recycling

Waste Tire Grant FY2012 Request for Proposals

GRANT OVERVIEW:

County or municipal governments that provide solid waste services may request waste tire grant funding. Waste Tire Grant proposals will be considered annually. As Department funding allows, quarterly proposals will be considered for the management of newly identified stockpiles or for unanticipated shortfalls in county funding for the management of current generation tires.

Grant funds are intended for the removal or contracting for the removal of waste tires for processing and/or recycling, public education that promotes the recycling of waste tires, professional development related to waste tire recycling and other direct costs. Each county receives funding from the State Treasurer's Office on a quarterly basis for the management of waste tires. Grant funding for contractor costs is limited to the shortfall realized upon depletion of Treasurer's Office funding.

Tire grant funding is also available to assist counties with the management of waste tires accepted from in-county automobile dismantlers at no charge. Automobile dismantlers must be on the verified dismantler list provided by DHEC in order to participate. Municipalities are not eligible for automobile dismantler funding under the grant.

SUBMITTAL INSTRUCTIONS:

- Proposals should be submitted electronically. If electronic submittal presents a problem, please contact this office for other available options.
- Proposals must be received by the Office no later than **5 p.m. Friday, April 1, 2011.**
- Proposals should be submitted in a Word format.
- Proposals received after the deadline will not be considered.
- Incomplete proposals will not be considered. All questions must be thoroughly answered.
- Fax copies will not be considered.

Electronic submittals should be e-mailed to swgrants@dhec.sc.gov

NOTE: If e-mail presents a problem, please contact this office for other available options.

CONTACT INFORMATION: Stefanie Vandiver (803) 896-4229 or Jana White (803) 896-4221

Note: This solicitation does not commit the state to award a grant, to pay any cost incurred in the preparation of the proposal, or to procure or contract for articles of goods or services. The state reserves the right to accept or reject any or all proposals received as a result of this request, or to cancel in part or in its entirety this proposal if it is in the best interest of the state to do so.

**SC DHEC Office of Solid Waste Reduction and Recycling
FY2012 Waste Tire Grant RFP**

Waste Tire Grant Proposal Instructions:

Project proposal must be received by **5:00 p.m. Friday, April 1, 2011.**

Late or incomplete proposals will not be considered.

Responses must be numbered and addressed in numerical order.

AT A MINIMUM, responses must contain the following information.

1.	Applicant name, and all contact information for project manager, Finance Director, and authorized representative (County Manager/Administrator).
2.	Detail your county policy for accepting tires from residents. a. Identify the locations where tires are accepted. b. Explain what fees are charged, and explain when and how fees are waived. c. Provide tonnage estimates projected for FY2012. d. Identify where and by whom the tires will be hauled, processed and recycled.
3.	Detail your county policy for accepting tires from retailers of new tires. a. Identify the locations where tires are accepted from retailers. b. Explain what fees are charged, and when and how fees are waived. Describe required documentation; for example ST-390s, canceled checks, etc. c. Provide tonnage estimates projected for FY2012. d. Identify where and by whom the tires will be hauled, processed and recycled.
4.	Detail your county policy for accepting tires from automobile dismantlers. a. Identify the locations where tires are accepted from auto dismantlers. b. Explain what fees are charged, and when and how fees are waived. Describe required documentation; for example AD form 1 and 2, etc. c. Provide tonnage estimates projected for FY2012. d. Identify where and by whom the tires will be hauled, processed and recycled.
5.	Detail your county policy for accepting tires from other businesses. a. Identify the locations where tires are accepted. b. Explain what fees are charged, and when and how fees are waived. c. Provide tonnage estimates projected for FY2012. d. Identify where and by whom the tires will be hauled, processed and recycled.
6.	Describe your current contract(s) for recycling waste tires, or if no contract is in place, provide a description of how a contract would be solicited and awarded.
7.	If transportation is handled separately from recycling, provide a description of your current contract(s) for transportation of waste tires, or if no contract is in place, provide a description of how a contract would be solicited and awarded.
8.	Specify amount requested for contractor costs to manage current generation tires. Please attach fee worksheet. "Current generation" tires are those generated by county residents or businesses on an ongoing basis. Current generation expenses may be requested by county governments only.
9.	Specify amount requested for stockpile remediation (prior approval needed).
10.	Specify amount requested for professional development, not to exceed \$1,000. Reminder: All Professional Development must be pre-approved prior to travel
11.	Specify amount requested for public education, not to exceed maximum allowable. [Population < 50,000: Max. award \$3,000]; [Population 50,000 to 100,000: Max. award \$4,000]; [Population > 100,000: Max. award \$5,000]. Reminder: All educational activities must be pre-approved prior to purchase or development.
12.	Specify amount requested for other direct costs. Include a detailed description of all goods and services requested. Requests lacking a clear detailed description will not be funded. Include descriptive literature and/or photos as applicable.

**TIRE FEE WORKSHEET
(COUNTY GOVERNMENTS ONLY)**

Applicant:
Tons passenger tires managed annually:
Tons commercial truck/bus tires managed annually:

		2010 Actual	2011 Anticipated	2012 Anticipated
Current Generation:	A.) Total tons managed			
	B.) Contracted rate/ton for removal/recycling	\$ 	\$ 	\$
	C.) Total Cost (A x B)	\$ 	\$ 	\$
Stockpile Clean-ups:	D.) Total tons managed			
	E.) Contracted rate/ton for removal/recycling	\$ 	\$ 	\$
	F.) Total Cost (D x E)	\$ 	\$ 	\$
Automobile Dismantler:	G.) Total tons managed			
	H.) Contracted rate/ton for removal/recycling	\$ 	\$ 	\$
	I.) Total Cost (G x H)	\$ 	\$ 	\$
Revenues:	J.) Treasurer's Office Disbursement	\$ 	\$ 	\$
	K.) Tipping Fees for Waste Tires	\$ 	\$ 	\$
	L.) Revenue from other sources	\$ 	\$ 	\$
	M.) Total Revenues (J + K + L)	\$ 	\$ 	\$
Calculate your anticipated shortfall amount using the numbers from 2012 Anticipated column above:				
Total anticipated cost for 2012 (C + F + I):				\$
Less: Total anticipated Revenues for 2012 (M):				\$
Anticipated Shortfall: Contractor costs cannot exceed this amount.				\$*

**Grant Application Guidelines
FY2012 Waste Tire Grant Program**

1. The Office must receive one electronic copy by 5:00 p.m. on Friday April 1, 2011. Proposals received after the deadline will not be considered. Incomplete proposals will not be considered. Faxed proposals will not be considered.
2. Grants shall not be provided to any local government or region that does not demonstrate a good faith effort to meet the requirements of the Solid Waste Policy and Management Act of 1991.
3. Local governments must have submitted the appropriate reports under the guidelines of the Solid Waste Policy and Management Act of 1991 to participate in the program, to include a complete Solid Waste Management Plan, an annual solid waste management progress report and full cost disclosure documentation as required.
4. Waste Tire Grants are made available to:
 - a. Any county in the State of South Carolina.
 - b. Any municipal or local government that provides solid waste services.
 - c. Regional applications may be submitted by any group of counties or local governments that have submitted to DHEC a regional solid waste management plan.
 - d. Informal regions may apply but must submit a Memorandum of Agreement that designates one eligible local government to administer the funds.
5. Grants will not be provided for projects not consistent with the state or local county Solid Waste Management Plan.
6. Applications will be reviewed by DHEC staff and the Waste Tire Committee. Applications will be reviewed and recommendations formulated based upon the Grant Guidelines. Waste Tire Committee recommendations will be presented to the Solid Waste Advisory Council (SWAC) for approval.
7. Aggrieved parties may apply within 30 days of the decision to SWAC for a review of that decision. Within 45 days of the original grant decision, the Office will inform the aggrieved party of the hearing date, place and time. Within 60 days the SWAC will render a final decision.
8. All grants awarded will have an ending date of June 30, 2012.
9. The applicant must be able to provide documentation of ownership or present a signed lease agreement for any land that may be used in conjunction with the project proposed.
10. Activities undertaken to fulfill the requirements of the grant must be performed in compliance with all federal, state and local regulations.
11. The Grantee shall not provide any DHEC grant funds to private sector recycling programs unless specifically contracting for goods or services.
12. No person shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination in relation to activities carried out under this grant program on the grounds of race, age, health status, handicap, color, sex, religion, or national origin.

13. Tires managed under the grant program may include tires accepted from verified automobile dismantlers. Transportation costs for the delivery of automobile dismantler tires to the county's approved facility will not be paid with grant funds.
14. The Waste Tire Grant funds are intended for the removal of or contracting for the removal of waste tires for processing or recycling. Specific items that may be requested include:
 - a. Contract costs for the collection, transportation, processing and/or recycling of waste tires. Awards are limited to the funding shortfall as calculated using the tire fee worksheet. Municipalities will not be awarded contract costs except as approved for stockpile remediation.
 - b. Public Education funding to promote waste tire recycling up the limits described in RFP item 11.
 - c. Up to \$750 may be requested for the recycling coordinator or other solid waste management personnel to attend conferences or seminars related to waste tire recycling. State limits are imposed for hotel costs, meals and mileage.
 - d. Other direct costs associated with the collection, transportation, processing and/or recycling of waste tires. Other direct cost items will not be considered if not fully described in the proposal.
15. All equipment purchases or facility construction projects will be reviewed on a cost-per-unit basis. Grantees must document:
 - a. All costs associated with the project,
 - b. Estimates of the number of tires associated with the project, and
 - c. An evaluation of these costs over the life of the project.
16. Cost comparisons should be made for purchases vs. leases. Cost comparisons should also be made to compare contracts for service vs. the grantee performing the service itself.
17. Counties and local governments must contract only with department-permitted and/or department-approved waste tire processing, recycling and disposal facilities, and must hire only waste tire haulers who are registered with DHEC. Counties and local governments that haul, process or dispose of waste tires themselves must also obtain the appropriate DHEC permits and/or registration.
18. Grant funds for the clean up of stockpiles on private property will be considered only after other remediation efforts have been exhausted.
19. Stockpiled tires must be clearly documented on site maps and submitted with the application. Estimates of the number of tires must be included. Local DHEC solid waste consultants may be asked to verify the stockpile locations, confirm the size estimates or estimate the age of the stockpile.
20. The evaluation of Waste Tire Grant applications will include a review of the status of all county tire fee receipts. Documentation of all tire fee receipts should be made available to the Office with the application form. This is to include the current balance of the State Treasurer's Office quarterly tire distribution fund, past expenditures from that fund, planned expenditures from that fund and any tire fees collected by the Applicant at landfills or other collection points.
